

MODEL OF HEALTH

Subluxation / sub-lux-a-tion: a misalignment of the spine that causes nerve dysfunction, dis-ease or less than optimal health.

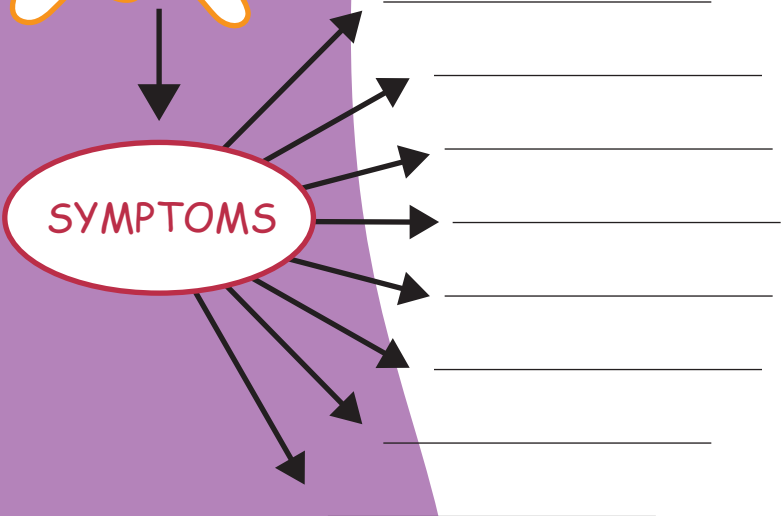

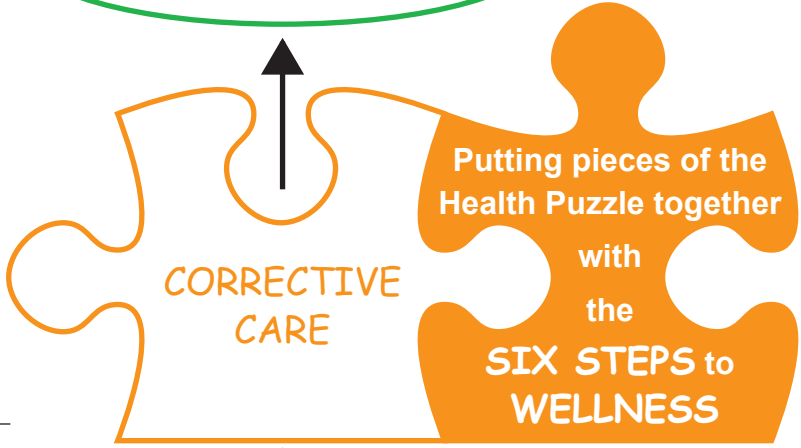

- SIX causes of Subluxation:**
- Structure---Spinal function and stability
 - Nutritional Deficiencies
 - Electro Magnetic Pollution
 - Allergies / Sensitivities
 - Emotions
 - Toxins

FUNCTION
(Determined by Brain Body Connection)

MAINTENANCE CARE

DIS-EASE

RELIEF CARE
Treats **SYMPTOMS** only
